## DEMAND GROWING FOR ROOSEVELT'S RETURN

Confidentially Believed That He Would Not Have Stood For the Present Tariff Law.

WASHINGTON, Nov. 15.—After a long absence from the White House the President has made a brief visit to Washington and again departed. Mr. Taft has been a resident of the historic mansion for nearly a fortnight. Many improvements have been made during the summer. The new White House offices, connected by a long gallery with the main building and to be used for the first time by President Taft, have been enlarged twice the size as used by Ex-President Roosevelt. The contractors have worked on these offices day and night, with three shifts of workmen, in order that they might be completed and ready on Mr. Taft's return. The offices extend entirely over the lawn and grounds made famous by the athletic President and his kitchen cabinet, a name given by journalists to his companions in tennis, including Gifford Pinchot, James Garfield, Judge Cooley, the French Ambassador, and one or two others. President Taft was received on his arrival by his cabinet and a delegation from the Chamber of Commerce of Washington. He is probably the only President who has ever been in the White House who is not bored by formal ceremony. The Chamber of Commerce is a fifth wheel in Washington. It is an organization quite equal to launching an automobile parade or a committee to get in the way of the President and impede his resistless rush home to see his wife. Mr. Taft is a patient and amiable man. They would not have dared to get in the way of his predecessor. Speaking of his predecessor, the demand for his return is undoubtedly growing. The Pinchot-Ballinger-Mitch-La Follette-Dolliver-Beveridge-Hammans and Middle West are calling for Roosevelt. The hunter of tigers, hippopotami and elephants will find bigger game here two years hence. There is but little doubt that Roosevelt had been President the last time he was in the White House. He has been whitewashed, and that other half-way measures and policies would have failed to receive the approving smile and caressing pat. It is said of President Roosevelt that the members of his cabinet were mere clerks, that he used them merely as intermediaries for the accomplishment of his administration policies, though with reference to one cabinet

officer, at least, this was far from the truth, for on one occasion, after trying in vain to get Secretary Root to the 'phone, knowing that he was at his desk barely four hundred feet distant, the President sent a messenger for him asking an interview, only to receive the answer that the Secretary of State was busy and could not see him. President Taft's relation to his cabinet has not been fully developed. It has been generally believed that having chosen a cabinet of lawyers, himself a lawyer, his administration will be statute-bookish. That he is disposed to stand by his cabinet may be inferred from his conspicuous endorsement of Ballinger in his controversy with Glavis and Pinchot.

Now that the installation of the executive and his cabinet is complete, soon to be followed by the beginning of the Congressional session, Washington will once more attract the attention of the country as the arena of the greatest political activity, or, at least the most important in this hemisphere. During the last ten years great changes have taken place in the setting of the locale of government. No longer is the visitor disembarked from the trains at the old Sixth Street Pennsylvania station or the New Jersey Avenue Baltimore and Ohio station. A new railway union station unexcelled in grandeur and convenience by any in the world has been completed and is in use. Those approaching the capitol by the main entrance are impressed with the appearance of two new immense marble palaces near the Senate and the House wings of the capitol. These are the office buildings for Senators and Representatives in Congress and are connected with the Senate and House halls by underground galleries traversed by automobiles. For elegance, luxury and solid splendor the Congress of the United States are unequaled by any legislative body in the world. A heating plant costing a million and a half dollars, situated nearly a half a mile from the capitol, furnishes warmth, light and purified atmosphere to these office palaces and to the Congressional Library. In the last year, as it will be remembered, the salaries of members have been increased from \$5,000 to \$7,500, and they may now, by an adroit use of their new luxurious offices and an

## SECOND WEEK OF THE CIRCUIT COURT

WILSON, CHARGED WITH KILLING MAN IN HIS CHARGE, RELEASED.

Alex Stephens Made His Illustrious Name Good by Coming Out, But Others Were Left in the Cold.

The second week of the Circuit Court convened at 2 o'clock Monday afternoon, pursuant to adjournment of Saturday.

Judge Wills, Sheriff Ramsey, Clerk Wienges and other officers were in their places when the court announced the opening, and the following jury was sworn:

R. H. Doke, C. J. Fletcher, W. F. Gay, S. P. Hardee, J. M. Love, H. C. Parrish, S. S. Polk, M. H. Slaughter, W. P. Shettlesworth, C. W. Slaughter, H. D. Wood, T. H. Cato, W. P. McLeod, B. N. Smith, J. E. Cauthon.

The court having overlooked the records, a special venire in the State vs. Clarence Smith, charged with murder, was ordered. The case will require fifteen special veniremen, returnable Tuesday morning.

The following cases were disposed of:

State vs. Sam Williams, selling liquor; defendant arraigned and pleaded guilty. No sentence.

State vs. Alex Stephens, selling liquor; tried by jury and defendant found not guilty.

Allen Johnson, alias Walter Williams, breaking and entering; tried by jury and found guilty; three years.

State vs. Joe Roberson, breaking and entering; tried by jury; two years.

In the case of the State vs. Boyzer George, assault with intent to commit murder, the case was continued on account of the motion of the State.

In the case of the State vs. L. F. Wilson, a "convict boss," charged with inhuman treatment to a convict, the indictment was quashed on motion of defendant's attorney.

The court adjourned to 9 o'clock Tuesday morning.

economical use of sandwiches, save some money.

There are restaurants in the basement under the Senate and lower House, and it has been the custom to let to cafe managers outside of the capitol the concessions for supplying our law makers with the meals they desire to take in the capitol. It has just been announced after a number of failures in this business that the last restaurant manager in charge of the Senate cafe has declined to accept the concession again, and it is said that hereafter the Government itself will look after the menus and the supplying and preparation of the food. That is to say, an appropriation will be made by Congress for that purpose, and among the spoils of office will be the appointment of managers, cooks, waiters and other attaches of this post. No one said whether or not the appointments will fall under the civil service, and whether a man to properly enter to a dyspeptic Senate must know the Binomial Theorem and quadratics, but at any rate Congress is going to look after it in one way or another. The trouble all along has been the exceeding simplicity of the appetites of most of the Senators. While it was necessary to maintain a menu a foot long in order to satisfy the eye of the legislators, their appetites are as a rule satisfied with a glass of milk and a piece of pie, and the restaurant, therefore, is a business failure.

## CHRISTIAN'S MOTHER HAD A PREMONITION

That Son Would Be Hurt in Football Game in Which He Lost His Life.

WASHINGTON, D. C., Nov. 15.—Football has claimed another victim in Archer Christian, the eighteen-year-old left half-back of the University of Virginia team, whose injury in the game with Georgetown University Saturday afternoon was followed by his death at Georgetown University Hospital Sunday morning. The body was taken to Richmond for burial.

An autopsy disclosed that death was due to cerebral hemorrhage, following concussion.

Profoundly stirred by the fatality, the District coroner has sworn a special jury of prominent citizens whose duty it will be to suggest if possible some modification of the rougher features of the game and to look into the question of alleged police brutality and indifference following the accident.

### Death Comes Peacefully.

Death came to the injured man peacefully. His parents, Mr. and Mrs. Andrew Christian, and his brother, also a football player, were with him when the end came. Sincere sympathy is manifested for them and Sunday morning in the University Chapel the entire undergraduate body knelt and prayed for the repose of the soul of young Christian.

Accompanying the body to Richmond in addition to the relatives were a number of students of the University who had come to Washington to see the game. Capt. Thomas Stuart of the Georgetown team and Rev. John J. Carlin, president of the Georgetown Athletic Association. The football team of Georgetown is making arrangements to attend the funeral.

### Police Brutality.

Coroner Nevitt's special jury is made up as follows: Dr. W. P. Carr,

name is honored in all parts of Florida; was the victim of a serious and painful accident last Monday evening at her home in this city.

Mrs. Anderson went to sit down in a chair that usually stands in one place. The chair had been moved slightly and she fell, fracturing her left hip joint.

The fracture is a most serious one, and doubly so because of Mrs. Anderson's advanced age, and the difficulty in getting at the fracture to set and hold in place.

Dr. Geo. E. Welch is attending the case and giving it his most devoted

for a number of years coroner; Dr. Logan Owen, formerly a well-known player on the Georgetown team; Ward Theoron, vice-president of the Washington Electric Railway Company; William B. Hibbs, John F. Wilkins and Thomas C. Noyes.

In addition to the alleged indifference of the police following the accident it is charged that Andrew Christian, a brother of the injured man, clad in a football suit, while endeavoring to accompany the patrol wagon in which his brother had been laid, was roughly mistreated by a policeman, the latter striking him and shoving him off the rear step. This matter also will be looked into thoroughly by the police department.

### His Mother's Premonition.

The death of Christian has put an end to all football playing by Georgetown and Virginia for this season. Yesterday President Joseph Himmell of Georgetown sent the following dispatch to Dr. Alderman, president of the University of Virginia:

"I regret exceedingly the sad misfortune that occurred here Saturday. As an earnest of our sympathy we have cancelled all football engagements."

Condolences also were sent to the University by the athletic authorities of Georgetown.

Virginia also has cancelled the remaining games of her schedule and disbanded her team.

It was said yesterday that Mrs. Christian always was fearful regarding the fate of her son, having had a premonition that he would be killed. Though in Washington she did not go to Saturday's game, but immediately after it was over she telephoned to the hospital to ascertain whether her boy had been injured, and the news was conveyed to her.

care. Mrs. Anderson, though suffering greatly, has maintained a cheerfulness that is surprising.

Mrs. Anderson is the widow of Major-General J. Patton Anderson of the Confederate army, and one of Florida's most noted heroes in the war between the States.

She is the honorary president of the U. D. C. of Florida, and president of Patton Anderson Chapter of this city. Orlan, her misfortune will be felt in all parts of the Southland.—Paalika News.

## Bad Drowning of Young Man In Withlacoochee River

Another sad story is reported from our county. Mr. and Mrs. Alken, brothers and Mr. and Mrs. Sim Caruthers of Oxford proposed to go for several days' outing on the Gulf. They did so, and spent the time most delightfully boating, catching and eating fish and oysters.

On returning, when they arrived at the ferry at Alto, near Lake Panosha, they found that the flatboat was on the opposite shore. In order to

and turbid stream. Mr. Caruthers may have lodged under a tree top, which held his body fast, or he may have plunged into the jaws of an alligator, or he may have become imbedded in the mud. Whatever the cause, it was in every way a lamentable affair, as the young man was newly married, and the young wife was an eye-witness to the said occurrence.

Everything was done that love and anxiety could suggest, but all to no avail.

When the news of the tragedy reached Oxford parties went prepared to thoroughly drag the river, and it is hoped that the body will be recovered.—Ocala Banner.

## Sharks Add Horror To Wreck of Large Steamer

SINGAPORE, Nov. 15.—The mail steamer La Seyne of the Messageries Maritimes Service, running between Java and Singapore, and on her way to this port, was in collision early yesterday morning with the steamer Onda of the British India Line, and sank within two minutes. Seven passengers, including Baron and Baroness Beniczky, the captain of La Seyne, five European officers and 35 others, comprising native passengers and members of the crew, were drowned.

The rescue of 61 passengers, practically from the jaws of sharks of the wreck.

The accident occurred about 4 o'clock in the morning in a thick haze.

The vessels were steaming at good speed and the Seyne was cut almost in half. The majority of those on board were caught in their berths and carried down with the vessel.

The forces of the collision brought the Onda to almost a dead stop and her engines were at once slowed and boats lowered. The rescue proved thrilling, for not only were the rescuing parties impeded by the sharks, but shoals of sharks were already attacking those clinging to pieces of wreckage in the water. Sixty-one persons from the ill-fated steamer were finally dragged into the boats and brought by the Onda to this port. Many of them had been bitten by sharks and several are severely injured.

## CAPT. BAKER SHOTS MAN IN SELF-DEFENSE

HOBBO HAD DELIBERATELY FIRED  
HIS PISTOL AT HIM.

Kindhearted Senator From Sumter  
Spared Life of His Assailant Under  
Trying Circumstances.

Early Sunday morning Captain D. H. Baker of Orange Home, in order to protect his own life, was forced to shoot a man at his place. Captain Baker regrets the occurrence very much, but under the circumstances it was unavoidable.

The facts in the case, as learned by a Times man from a reliable source, are about as follows:

For about ten days some person or persons have been deprecating in various ways around Capt. Baker's place. They would go into the grove and take oranges out on the railroad, eat what they wanted and leave a dozen or more scattered around; would also enter the barn where peanuts were stored, and pick the nuts off the vines. On Sunday morning a man working for Capt. Baker reported that he saw a man come from the barn. He went up to the pump, got a drink of water, washed and walked very brazenly out at the front gate, as though he was perfectly familiar with the premises, eating peanuts as he went. It being Sunday, and the Captain not wishing to have any trouble, did not molest him. The man then went up the railroad and entered the grove, climbing the fence. Capt. Baker then picked up his gun for protection and went to the grove, and when he got to the grove gate the man came out over the fence and stopped by a pine tree by the side of the road. Capt. Baker stepped into the road and said: "Well, sir, someone has been stealing oranges here for some time, and I guess I have found the man." They stood in the road and parleyed for a few moments, and then the Captain told him that he would have to detain him until he could phone to Wildwood for a deputy sheriff and would have to hold him until the next day, (as this was Sunday), then give him a hearing. He kept by the tree, and Capt. Baker told him to "move on down the road towards the house, as I am going to turn you over to the sheriff."

At this instant he fired at Captain Baker at range of about ten feet with a .38-calibre revolver. He was so quick about it Capt. Baker did not have time to take his gun off his shoulder. Capt. Baker then stepped back two or three steps, and said: "Don't shoot any more; don't shoot any more." He raised his revolver and took rest against the tree to shoot again. As he did this Capt. Baker shot at the man's pistol. Capt. Baker said that he did not see the man, as he was watching the pistol, and felt that his only chance was to put that out of business. He cut the bark from the tree and put one shot in the cylinder of the man's revolver, who was behind the tree all the time. He still made further effort to shoot.

The Captain called to him to put his pistol down or he would shoot him, not knowing he had already hit him. After repeated efforts he found that his pistol would not work, and said: "You have already shot me; you have broken my arm," and dropped his pistol.

Capt. Baker said: "I did all I could to keep from shooting, and after he took one fair shot and missed his mark, he was in no danger whatever until he raised his gun, took a rest against the side of the tree to make doubly sure of me next shot, I thought then it my duty to protect myself."

The man was tramping through the country and had about sixty dollars on his person. He first gave his name as Brown, then Lindsay. He was shot in the breast and his arm was broken, but from last accounts was resting easy, and will probably recover.—Sumter County Times.

Capt. Baker is State Senator from Marion and Sumter counties and owns a fine orange grove at Orange Home, Sumter county, where he lives. He was a member of the board of trustees of the old East Florida Seminary, and is well known in Gainesville. He is a native of Kentucky and represented his county in the Legislature of that State when a very young man. There is not a better man in all Florida, and those who

## UNIVERSITY OF FLORIDA WON OVER ROLLINS

DEFEATED COLLEGE BOYS BY  
THE SCORE OF 28 TO 3.

Game Was Called on Account of  
Darkness, But Florida Had  
Points to Spare Anyway.

Florida won out in the gridiron contest with Rollins College at Orlando Monday afternoon, and the students who "remained at home" were the happiest folk in town if the demonstration they waged for about an hour last night counts as evidence in this direction.

The Sun received the following dispatch regarding the game from Coach G. E. Pile:

"Florida 28, Rollins 3. Florida fumbled ball on the kick-off and Rollins made a field goal, and at end of first half score was Florida 11, Rollins 3—twenty-five minutes' play. Taylor run 45 and 75 yards for touchdowns in first half.

"In second half—10 minutes—Taylor made 60-yard run, Adgerton 30 yards and McCormick 80 yards, assisted by Moody's fine interference. Two touchdowns were made from forward passes.

"The game was called on account of darkness. Stetson team attended game in full. The crowd were all for Florida."

## AMUSEMENTS

Two years ago last March, at the end of a season chiefly remarkable for its long list of disastrous dramatic failures, there was offered at the Savoy Theatre in New York the first play of an unknown author. It was presented at a special matinee and before an invited audience made up of newspaper and magazine critics and intellectual men and women of every rank of life. Next day the newspapers of New York City proclaimed the fact that a dramatic masterpiece had been put upon the contemporary stage and one that daringly presented as its central character a reincarnation of the Christ. Almost immediately the new play leaped into fame and settled down to a run that lasted all spring and summer during a period of intense heat that proved fatal to the lives of even frivolous musical comedies. Following the New York run the production was moved across the continent to San Francisco, where it aroused as much discussion as it had in New York. It was then presented in Chicago for a ten weeks' run and became the dramatic sensation of the Western metropolis. That initial production in New York City was the first chapter in the stage life of "The Servant in the House," which is now running in three countries of Europe, which will soon be offered in Paris, London, Berlin and St. Petersburg, and which has become the talk of the entire civilized world. Its author, Charles Rann Kennedy, was absolutely unknown to fame when "The Servant in the House" first appeared; today he occupies a prominent position in the front rank of living dramatists. Manager McCollum has by great fortune secured this great play and company for the Baird Theatre on next Thursday night.

## EDUCATORS TO HAVE A BIG CONVENTION

ALL TEACHERS OF COUNTY WILL  
MEET IN GAINESVILLE.

Many Issues of Importance Will Be  
Discussed, Among Which Will Be  
Mode of Teaching Agriculture.

With a view to giving the children  
of Alachua county the best service  
possible for the educational enlighten-  
ment in the public schools, the Board  
of Public Instruction at its last regu-  
lar meeting directed that a teachers'  
institute, for white teachers, be held  
on Thursday night and Friday, the  
17th and 26th inst., and inasmuch as  
there will no doubt be a large at-  
tendance there will no doubt result  
a great deal of good from this con-  
vention.

Through the careful study of Super-  
intendent J. L. Kelley, in connection  
with members of the school board,  
this year are blessed with  
the finest and most efficient corps of  
educators the county has ever had,  
not only in the larger and higher  
grade schools, but in institutions of  
all classes. After a thorough in-  
vestigation of each individual appli-  
cation for position as teacher, the re-  
sult has been that none but competent  
instructors, according to grade, have  
been employed.

### Dr. Kelley's Order.

In accordance with instructions of  
the school board, Dr. J. L. Kelley,  
Superintendent of Public Instruction,  
has issued the following order, a  
copy of which will be forwarded to  
every white teacher in the county:

"The Board of Public Instruction,  
at their last meeting, ordered me to  
hold a Teachers' Institute in this  
city, beginning November 25th at  
8 p. m., and closing Friday night. You  
will therefore close your school at  
the usual time on Wednesday, 24th,  
and reopen on Monday, the 29th.  
Do not fail to obey this order. No  
white school must be run these two

days, and if anyone do so they will  
not be paid for the same. All who  
attend the Institute will be paid  
for full time, and in reporting these  
days, record the average attendance  
for Wednesday for Thursday and Fri-  
day.

"I am instructed by the board to  
order every white teacher in Alachua  
county to be present at the first ses-  
sion of the Institute on Thursday even-  
ing. I hope you will cheerfully  
comply with this order, just as much  
as you would any other order given.  
Do not ask to be excused, as no ex-  
cuse will be accepted, unless it be  
for Providential hindrance.

"It is vitally important for many  
reasons that all attend. Many sub-  
jects will be discussed, chiefly as to  
how agriculture will be taught in the  
schools, as well as many other live  
issues, and exchange of opinion will  
be very beneficial."

### AT THE METHODIST CHURCH.

Two Weeks' Revival Started at This  
Place of Worship Sunday.

Many of the Christian people, re-  
gardless of denomination, were in at-  
tendance at the First Methodist church  
Sunday to launch a religious crusade,  
which has been started by Rev. T. M.  
Christian, a Georgia evangelist, who  
has made a great success throughout  
the country in his work.

Mr. Christian, who bears a very ap-  
propriate name, is surely a Christian,  
as judged by his sermon of Sunday  
night, when he rendered a most ap-  
propriate discourse on the text of St.  
John, 3:3: "And Jesus answered and  
said unto him: Verily, verily, I say  
unto thee, except a man be born again  
he cannot see the kingdom of God."

Mr. Christian was greeted by possi-  
bly one of the largest congregations  
ever assembled in the Methodist  
church in this city. He handled his  
subject with the deepest interest, and  
at the close many felt better for be-  
ing there. The speaker is possessed  
of a personality which must command  
attention, and there is no doubt but

that his work here will be felt.

The services continued Monday, at  
9 o'clock and 7 o'clock p. m., and will  
be kept up every day at these hours  
for two weeks.

These services are destined to bring  
good, and a cordial invitation is ex-  
tended to all.

## IT IS CURABLE

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store, J. W. McCollum & Co., corner East Main and Union streets.

REPUBLICANS WILL  
GET INTO LINE

MEETING CALLED FOR JACKSONVILLE ON TUESDAY, DEC. 7.

Mills of Republican Machine Will Be Well Oiled and Set to Grinding With a System on That Date.

Those who are laboring under the impression that the Republican organization of the State of Florida are napping are mistaken, for the organization is very much alive to the interests of the party in Florida, as will be evidenced by a call for a meeting of the Republican State Central Committee, which will convene in Jacksonville on Tuesday, December 11, "for the purpose of transacting any and all business that may properly come before the committee."

The Republican party of Florida—at least that arm of the party which have the balance of power—have been weeded down to a few of the most influential—the majority Republican pie-eaters—and it is remarkable the influence this crowd wields among the great National leaders.

At this convention the chairmen and secretaries of the various district committees, the Republican candidates for Congress, candidates for State office, and delegates to the National convention in 1908 are urgently invited, and the call urges all members of the State Central Committee to be on hand at the meeting, or send proxies.

Considerable interest is being manifested in politics by the Republicans throughout the State, and the leaders anticipate a good meeting in December.

Hon. Henry S. Chubb, register of the United States land office in this city, is chairman of the Florida Republican State Central Committee, while Hon. Shields Warren, receiver of the United States land office, is chairman of the executive committee of the third district.

Women Suffer Agonies  
from Diseased Kidneys  
And Most Women Do This Not Knowing the  
Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail post paid. Do it to-day.

## CITIZENS HOT AFTER ATLANTIC COAST LINE

BUSINESS MEN CAN'T BE IGNORED WITHOUT AN EXCUSE.

New Schedule Annulled Four Most Important Trains, With Result That Commission Acts.

There is an old adage that when a man wants a thing bad enough, and wants it long enough, he is bound to get it, or something to that effect.

And this applies very aptly to the business men and citizens generally of Gainesville. They wanted and wanted and wanted, for a long time, a decent and convenient schedule which officials of the Atlantic Coast Line evidently had in their power to give, and patience almost ceased to be a virtue when, it is to be judged by the constant appeal of our people and the sympathetic influence of the local division officials of the Atlantic Coast Line at this point, the citizens of Gainesville did finally get what they wanted, which was nothing more than a reasonably convenient schedule for our country neighbors to come to town, spend the day, transact their business and sleep in their own beds the same night.

### Cut the Schedule Off.

This schedule, which enabled those having business here to come to Gainesville from either direction, transact their business and return the same day to their homes, was inaugurated, and it worked beautifully to the satisfaction of all; but it seems that the tourist trade had to be looked after, and the last schedule card showed the annulment of the most important trains to and from Gainesville, those of Nos. 9 and 10, between Ocala and Jacksonville, and Nos. 138 and 139, running between Wilcox, in the West End, and Micanopy and Citra, via Gainesville, and that was where the trouble started.

### The Citizens Got Busy.

Upon learning that the change of schedule meant the annulment of these important trains, the people of Gainesville began to "get busy" with the result that a meeting of the Board of Trade and citizens was held Thursday for the purpose of making a protest with the annulment of these trains, which not only sapped the commercial blood out of this city, but was destined to prove most disadvantageous to those who had been accustomed to making a round trip a day from their homes to the county capital, with little inconvenience and no delay.

As a result of this meeting a committee was appointed to confer with the Railroad Commission in the matter. This committee comprised three of Gainesville's most influential citizens, Messrs. W. R. Thomas, W. B. Taylor and Henry S. Chubb, and the committee sent as spokesman Mr. Taylor, who left immediately for Tallahassee to lay the grievances of the meeting before the proper tribunal.

## Hay's Hair Health

GRAY HAIR HANDICAPS YOU IN BUSINESS AND OTHER THINGS. GET RID OF IT, RIGHT AWAY.

Gray hair is an unnatural disfigurement, it is your duty to yourself and your friends to get rid of it as soon as possible. It is a serious injury to you in your social and business life.

Get rid of it, by all means, but don't try to do so by the use of dyes, whose effect is but temporary and unsatisfactory and which may permanently injure your hair.

Use Hay's Hair Health and look young. It isn't a dye—it won't injure your hair and nobody will know you are using it. It quickly and unfailingly restores the natural color and beauty of the hair—brings back its youth, luster, softness and brilliant luxuriance. \$1 and 50c. Bottles, at Druggists. to the interests of those whom he represents, performed his work effectively, as he lost no time in presenting to the members of the Railroad Commission whom he found at home the true state of affairs.

In a letter to Messrs. Thomas and Chubb, who constitute the remainder of the committee, Mr. Taylor says:

"I met Railroad Commissioners Blitch and Dunn last Saturday morning. I pointed out to them that the withdrawal of trains No. 138 and 139 absolutely debarred residents of the western part of this county from visiting this, the county site, transacting the usual business and returning the same day.

"In fact, it developed upon perusal of the schedule that a citizen of Newberry visiting Gainesville spent something over four hours in the woods at Burnett's Lake, about an hour and a half here, and an intermediate wait again at Burnett's Lake in order to get back home during the same calendar day.

"I made an especial effort to acquaint the commissioners with the total disregard of the convenience of the railroad patrons developed through the new schedule, No. 5, and had the assurance of the commissioners that they would take immediate and vigorous means to have trains 138 and 139 put back on their runs.

"The procedure is to endeavor to do this without the necessity of a formal order and a public hearing. If the Coast Line officials decline, the commission will immediately call for a hearing and, if we can show the things that I claimed, the railroad company will then be ordered to put the trains back.

"I am frank to say that I believe if the trains are not reinstated at once, that they will be within two or three months, and never again will that schedule be interfered with with-

out giving us something just as good.

"Commissioner Burr is on the State's business at Louisville, Ky.

"The expenses incurred were \$16.25. I am very truly yours, "W. B. TAYLOR."

### MacArthur Knows Nothing.

It was rumored Monday that the Railroad Commission had wired General Superintendent Riddle of the Atlantic Coast Line at Jacksonville instructing him to continue the service of Train 138 and Train 139, between Wilcox and Citra, but Division Superintendent MacArthur stated to a Sun representative late on Monday afternoon that he had received no instructions. Inasmuch as these trains are operated on Superintendent MacArthur's division, there was evidently no foundation to this rumor.

While Trains 9 and 10 between Ocala and Jacksonville are of great benefit, the Wilcox-Citra train had become to be an absolute necessity for the accommodation of those of the West End who desired to spend a day in Gainesville and return home by night.

### It's a Crime

To neglect your health. The worst neglect that you can be guilty of is to allow constipation, biliousness or any liver or bowel trouble to continue. It is poisoning your entire system and may lead to a serious chronic disease. Take Ballard's Herbine and get absolutely well. The sure cure for any and all troubles of the stomach, liver and bowels. Sold by W. M. Johnson.

### Summoned to U. S. Court.

The United States land office will be almost depopulated of the higher officials the latter part of the present month, the result of a number of subpoenas served by Deputy United States Marshal W. G. Richardson on Monday summoning them to appear at the fall term of the United States court, to convene in Pensacola on the 29th inst.

The subpoenas were issued to Captain Antoine Paul, chief of field division, Hon. Henry S. Chubb, register, and Messrs. S. A. Shipman, F. J. Park and Hill, of the general division staff.

These gentlemen do not evidently appreciate the summons, as the force in the office here is very busy at present. When a Sun reporter suggested that the Government wanted merely to give them a "joy ride," one of the officials replied that there was "joy" enough in remaining at his desk in Gainesville, which reply might be taken as an inference that this official is in love with his work.

### A Hair Breadth Escape.

Do you know that every time you have a cough or cold and let it run on thinking it will just cure itself you are inviting pneumonia, consumption or some other pulmonary trouble? Don't risk it. Put your lungs back in perfect health and stop that cough with Ballard's Horehound Syrup. Price 25c, 50c and \$1.00 per bottle. Sold by W. M. Johnson.

You may find what you are looking for through a want ad. in The Sun.

Is something a real estate investor will never do without—it's his sole protection against a faulty title. Why not have us draw you up an abstract of your prospective investment so that you'll not be buying something "in the dark?" The cost is certainly nominal—and when compared with the amount involved looks ridiculous indeed to do without it. Accurate, complete work.

## TO REDUCE YOUR BILLS FOR FERTILIZER

BULLETIN NO 130 PROF.  
A. W. BLAIR

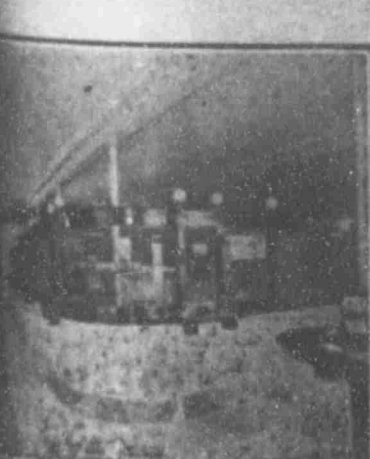

Great Value of the Beggar-  
weed in Fertilizer Properties  
to Farmers of Florida.

One of the most valuable papers is-  
the Florida Agricultural Ex-  
tension Station is Press Bulletin  
which shows farmers how to  
use their fertilizer bills. It is  
by A. W. Blair, and is as follows:

According to the report of the  
experiment for 1908, Florida spent  
last year about \$1,680,000 for  
(ammonia) in fertilizers.  
A portion of this money  
was paid to the State for sul-  
phur, ammonia, nitrate of soda,  
and bone meal, tankage, etc.  
Farmers engaged in general farm-  
ing can considerably lessen their  
bills for fertilizers, without im-  
pairing their crops, and thus bring  
down the State. The cost of  
fertilizing constituents in  
fertilizers is about 5 cents a  
pound of phosphoric acid, and the  
potash, while nitrogen costs  
a pound. (As used in con-  
nection with fertilizers the terms  
ammonia and ammonia mean nearly  
the same, one pound of nitrogen be-  
ing equivalent to 1.214 pounds of am-  
monia. It is possible for the agricul-  
turalist to do equally well without buy-  
ing nitrogen, and so he can ma-  
nipulate his fertilizer bill. For  
example, the cowpea, and  
bean Florida has a natural  
source in which the most expensive  
element, nitrogen, is gath-  
ered from the air. Knowing this,  
the farmer can avoid the extra-  
vagant cost of the State for large  
quantities of nitrogenous fertilizers.

**Nitrogen From the Air.**  
It is well known that the legumes,  
the beggarweed, cowpeas and vel-  
vet, have the power of utilizing  
nitrogen from the air and storing it  
in their roots. It may be used for other  
crops. Some chemists claim that the  
portion of the nitrogen of  
crops usually comes from the  
air. The farmer will take advantage  
of this provision of nature if he  
will cut down his fertilizer

## INDIGESTION?

bill. We can estimate roughly how  
much nitrogen any legume will add  
to the soil, if we know the analysis  
of the crop and the yield per acre.  
Clean beggarweed hay, cut when the  
plants were just coming into bloom,  
contained 3.3 to 3.4 per cent of nitro-  
gen. The dry stubble and roots con-  
tained about 1.45 per cent and the  
weight was about a quarter of the  
weight of the hay. Hence one ton  
of hay would yield 67 pounds of  
nitrogen, which, at 20 cents a pound,  
would be worth \$13.40; while the  
roots and stubble (500 pounds) would  
give seven and a quarter pounds of  
nitrogen, worth \$1.45. The value of  
the nitrogen from this ton of hay,  
including stubble and roots, would be  
\$14.85. If we only allow that one-  
half of the nitrogen comes from the  
air we have utilized the nitrogen of  
the air to the value of \$7.42, which  
is nearly as much as we would have  
to pay for 500 pounds of bright cot-  
tonseed meal. But we ought to get  
two tons of beggarweed hay per acre,  
which would then double our gain of  
nitrogen. If the beggarweed is left  
on the ground to decay, the plant food  
that the crop took from the soil, and  
the nitrogen that was taken from the  
air, are returned to the soil. If the  
crop is taken off as hay and no ma-  
nure returned, there is still some  
compensation, since the fallen leaves,  
roots and stubble have in them some  
of the nitrogen that came from the  
air. If the beggarweed is taken off  
as hay and the manure returned to the  
land, most of the fertilizing constitu-  
ents go back to the soil.

### Fertilizing Cotton and Citrus.

"The cotton grower will possibly  
fertilize his fields with 200 pounds of  
acid phosphate, costing \$1.60; 150  
pounds of bright cottonseed meal,  
costing \$2.50, and 100 pounds of kainit,  
costing 65 cents, the total cost being  
\$4.75 per acre. But a crop of beggar-  
weed may supply to the soil, from the  
air, about as much nitrogen as there  
is in 500 pounds of cottonseed meal.  
From this we see that the cotton  
grower can, by growing beggarweed  
and omitting the nitrogen, reduce his  
fertilizer bill by more than one-half,  
and still have more nitrogen than if  
he had bought the usual fertilizers  
and grown no beggarweed.

"When growing beggarweed in  
orange groves harm may be done to  
the trees as well as to the pocket-  
book, if, when the time comes to  
fertilize, the grower uses about as  
much nitrogen as he would have done  
if the grove had not borne a crop of  
beggarweed. The trees and fruit may  
then show the ill effects of too much  
nitrogen. Much of the nitrogen that  
would otherwise have been washed  
out during the summer rains is stor-  
ed up in the beggarweed, to be re-  
turned to the soil as the plants and  
roots decay in the fall and winter. In  
case none, or only part of the hay  
is removed, it is doubtful if the fall  
fertilizer ought to contain any nitro-  
gen at all."

### Mr. Beach Had a Hunt.

Deputy Sheriff J. A. Beach of Tren-  
ton was in the city Monday.

Deputy Beach stated that he was  
among a party of hunters from his  
section last week that went to La-  
Fayette county, and camped in the  
wilds. The party was very success-  
ful in killing deer and turkey, and  
among other wild game he killed  
three bear (approximated) and other  
game, which they considered a fine  
report.

The party comprised W. F. Beach,  
J. M. Love, J. H. Osteen, T. M.  
Griffin and Mit and Chapel Ellis of  
Fort White.

Everything passed off quietly.  
There was plenty of wild game and  
good sport, and everybody seemed to  
be well pleased.

Mr. Beach is always the fellow to  
"admit things" when it comes to  
shooting, and he decided with every-  
one that the hunt was "just exactly"  
as they counted it, only he thought  
he should have had one more deer.

### A Tiny Baby

Can't tell you in words what the  
trouble is; but if it's complexion gets  
pasty, if it gets weaker and weaker,  
loses flesh and is cross and peevish,  
you can be certain that it has worms.  
Give it White's Cream Vermifuge,  
guaranteed harmless. Expels the  
worms and puts the baby in a healthy  
normal condition. Sold by W. M.  
Johnson.

### PROMINENT LADY VISITOR.

Sister Esther Carlotta, President State Division, U. D. C., Here.

Sister Esther Carlotta of St. Augustine, president of the Florida Division of the United Daughters of the Confederacy, arrived in the city yesterday and will be a guest of Mrs. J. M. Graham at her home on West Main street N. today, where she will be pleased to welcome the Daughters.

Sister Carlotta has just concluded a delightful visit with members of Joe Wheeler Chapter at Starke, where she was accorded every courtesy, and comes to Gainesville for the purpose of becoming more fully acquainted with the U. D. C. workers here. She will be the honored guest at a reception to be tendered by Kirby Smith Chapter at the home of Mrs. H. H. McCreary this afternoon from 3 to 6 o'clock, during which a short historical program will be rendered.

Owing to the fact that Sister Esther is in mourning, this reception will not be of a public nature, but all Daughters are invited, and each member of the chapter is at liberty to have a friend accompany them.

In her capacity as Division president Sister Carlotta takes a deep interest in all matters pertaining to the work. She is one of the brightest women of the South, and is very much beloved by all who have the honor of her acquaintance.

J. J. Haymans, the naval stores operator of Lochloosa who makes his home in Gainesville, returned to the plant yesterday after a brief visit to his family here.

Mr. Robinson, manager of the famous Maxwell grove, Melrose, was among those who visited the city. Mr. Robinson has one of the largest and best-kept groves in the State, and visitors to his place are surprised at the neatness of the grove.

L. L. Hill has returned from San Mateo, Keuka and other points, where he has been buying oranges. Mr. Hill is one of the most thoroughly posted men in the State on the orange industry, but states that he is in no position to say anything "just now."

Attention is called to the advertisement of the A. R. Harper Piano Company, which appears elsewhere in this issue. This company handles some of the best pianos made, and aside from giving the people a place to stop while at the Jacksonville Carnival, Mr. Harper will be on hand to tell you about the merits of his goods.
